

Capabilities Overview

	EQUIPMENT	CAPABILITIES
CNC Sheet / Tube Cutting	Trumpf Tube Laser	Cuts up to 8" diameter, 3/8 ^{ths} thick steel + 29' long
	Trumpf Laser/Punch Combo	With Automation
	Trumpf Fully Automated Lasers	Up to 1" thick steel / up to 80 X 160 sheet size
CNC Brake	Trumpf Based Equipment	Up to 320 tons — 14.4' bed
CNC Bend Roller	Davi CNC 4 Roll	Up to 6' wide multi radius rolling
Drill Press	Drills	Drill, tap + countersink
	Tapping Arm	
Saws	Saws	Semi-automated cutting
	Hydmech S20A Band Saw	
Welding	Spot Welding	Huron 2DN100 Press Welder 100 kva
	Rocker Arm Welder	Techna 4662 Programmable 1/4" material - 50 kva
	Tensile Strength Tester	Up to 20,000 lbs
	Multiple Welding Stations	TIG & MIG / CWB standard 47.1 & 47.2
Assembly	Unlimited Capacity	
	Leak Testing Capabilities	
CNC Machining	Milling	3 axis up to 40 long, 20" wide + 24" deep
